Gujrat, Punjab, Pakistan | +92 322 6409363 | mirzazan3334@gmail.com | www.zain-imran.com | linkedin.com/in/zainimran98 | github.com/zainImran864

Full-Stack Developer and Junior Software Engineer with a B.Sc. in Computer Science, focused on building scalable web applications and security-product dashboards. Experienced across React, Next.js, Node.js, Python, and DevOps tooling. Delivered enterprise features at Cybersilo and shipped full-stack products for real clients.

EXPERIENCE

April 2026 - Present

Junior Software Engineer | Cybersilo | Pakistan

Building CTEM, a threat exposure management platform for attack surface visibility, vulnerability tracking, and compliance posture reporting.

- Developing dashboard flows, reporting screens, and platform features across React, Python, and DevOps tooling.
- Working with vulnerability and compliance data mapped to frameworks including CIS, PCI DSS, and CMMC.
- Contributing to product quality through readable code, team collaboration, and practical implementation decisions.

Until March 2026

MERN Stack Developer | Cybersilo | Pakistan

Worked on enterprise security products.

- Built scalable web application features using MongoDB, Express, React, and Node.js.
- Collaborated with engineering teammates on product workflows, APIs, and user-facing security dashboards.
- Improved maintainability by keeping components and backend logic clear, focused, and easy to extend.

December 2025 - February 2026

MERN Stack Developer | HTML5 Solutions | Remote

Worked on VoicePlatter (voiceplatter.ai), a React and Supabase platform for restaurant operations.

- Built and integrated POS functionality for restaurant workflows.
- Implemented English-to-Arabic translation across the product experience.
- Shipped Stripe subscriptions with plan, billing, and subscription lifecycle management.

PROJECTS

Pasteport - Open-source online clipboard (2026)

Installable online clipboard for sharing text, code, PDFs, and files via 6-digit codes with no login. Real-time clips with Firestore, smart storage via Cloudflare R2, PWA support, and scheduled cleanup. Built with Next.js 16, React 19, TypeScript, Firebase, and Cloudflare R2. Live at pasteport.zain-imran.com.

TrustBridge AI - Investor & entrepreneur platform (2025)

Role-based collaboration platform where entrepreneurs pitch ideas, investors discover opportunities, and supporters back social campaigns. Delivered authentication, role dashboards, pitch flows, and campaign management with React, Node.js, and MongoDB.

Gujrat Fans - E-commerce storefront (2025)

Responsive product catalog and inquiry website for a local fan manufacturer, built for clear presentation and fast loads on Vercel with Next.js and Tailwind CSS. Live at gujrat-fans.vercel.app.

Event Management - Full-stack event planner (2025)

Web app for creating, organizing, and managing events end to end, with practical user and admin workflows. Built with Next.js, MongoDB, and Express.

EDUCATION

2022 - 2026

Bachelor of Science in Computer Science | PMAS-Arid Agriculture University

- Completed May 2026, with coursework spanning software engineering, databases, and web development.
- Built full-stack academic and personal projects using the MERN stack and Next.js.

SKILLS

- **Frontend:** React, Next.js, JavaScript, TypeScript, Tailwind CSS, Redux
- **Backend:** Node.js, Express, Python, FastAPI, Flask, REST APIs
- **Databases:** MongoDB, PostgreSQL, MySQL, Supabase, Mongoose
- **Tools & DevOps:** Git & GitHub, Docker, Vercel, Postman, Stripe
- **Domains:** Security dashboards, compliance & reporting, SaaS subscriptions
- **Practices:** Responsive UI, readable code, maintainable architecture
